

## **Xerox® Easy Translator Service.**

Xerox® Easy Translator Service is a comprehensive translation solution that was designed for one purpose: to empower people to easily and securely translate documents, at any time, and from any device.

It leverages state-of-the-art cloud technologies to provide the translation services that you require: from instant and secure draft translation of a hardcopy document to timely and precise professional translation of digital files in over 20 formats.

Simply scan the document using the app on your Xerox® ConnectKey® enabled multifunction printer or snap a photo with your smartphone. Immediately receive a translation into one of over 35 languages via email and/or printed via MFP, maintaining the formatting of the original document.

Want to share documents with your global audience? Go to the Xerox® Easy Translator Web portal! Upload your files for secure draft translation or in a few clicks place an order for one of three levels of human translation: Express, Professional, or Expert, according to your document type, time, and budget requirements.

Xerox® Easy Translator empowers you to communicate with your target audience in their language and in a timely manner, attracting new customers and efficiently enabling your business growth.
